

KIDSCIENCE[®]

ADVENTURES

AFTER SCHOOL

Science Fun

Sponsored by:
Tahoe City PUD

~ Rideout Community Center ~

Join us for a fun-filled science adventure!

Using common materials, we will explore and perform a variety of amazing hands-on experiments. Session lasts six weeks—one hour each class.

Each class will be packed with science fun. Your child will experience science demonstrations, hands-on time with the experiments and make a take-home science project each week.

Performing safe and fun science activities creates excitement and develops critical thinking skills.

Explore & Discover:

- **FLIGHT**
Learn the secret of flight then test your ideas.
- **MAGNETS**
Uncover the mystery of magnets, then make a magnetic toy.
- **CATAPULTS**
Discover how energy is used by building, then testing a simple catapult.
- **GRAVITY**
Make a "marble skatepark" to demonstrate ramps and motion.
- **ROCKETS**
Make a mini-rocket launcher!
...and much more!

Ages: 6–13
Days: Tuesdays
Time: 4:00–5:00 pm
Dates: March 2, 9, 16, 23, 30, April 6
Location: Rideout Community Center,
Room 7
Fee: \$60, (\$65 non-resident)
Includes materials

At Kidscience Adventures, we've been teaching kids and instilling a love of science for 12 years. We've found that kids absorb more and learn best when they are having fun. So, fun has always been our top priority. Each week we focus on a different area of science where kids learn through hands-on science experiments. **For more information go to www.kidscienceadventures.com**

Instructor for this Course:

Christine Mcmorrow is a local teacher working for an educational non-profit organization serving the youth of the North Lake Tahoe and Truckee region. She has 8 years experience teaching hands-on science.
