District Engineer/Assistant General Manager, Matt Homolka
Director of Utilities, Tony Laliotis
Director of Parks and Recreation, Bob Bolton
Director of Accounting, Employee Services, Treasurer, Ramona Cruz

MISSION STATEMENT

The Mission of the Tahoe City Public Utility District is to serve people, our community, and its environment.

It is our responsibility to provide safe and reliable water service, sewer service for the protection of public health, and parks and recreation services to enhance quality of life.

It is our commitment to accomplish these and other tasks within the scope of the Public Utility District Act, as amended, in a sound fiscal manner.

BUDGET MESSAGE

Fiscal Year 2013

To the Board of Directors of Tahoe City Public Utility District,

I am pleased to provide you with the Fiscal Year (FY) 2013 Annual Budget and the 2013 Capital Improvement Program for Tahoe City Public Utility District (TCPUD). These spending plans reflect our commitment to provide a high level of service to our community's residents, rate payers, and visitors while managing costs downward. Focused effort to maximize efficiencies has continued to keep costs down while preserving our organization's outstanding service and safety levels.

As TCPUD continues to navigate challenging economic times, we are able to hold the line on staffing and expenditures. This has allowed TCPUD to keep the rates lower than the Board-approved HDR rate study and the voter-approved Proposition 218 process. Through careful cost controls and high productivity, we have increased service levels and added facilities for the community's benefit. This budget reflects staff's dedication and commitment to serve our community in the most efficient and effective manner possible.

However, we must continue to pay attention to and be conscientious of future obligations. We should not undertake additional ongoing commitments beyond those identified in our current expenditure plan and staffing levels without very careful consideration; weighing the benefit, service, and cost to provide.

The budget plan maintains our core service levels and provides increases in some areas. The result is a spending plan that meets the needs of our community without compromising our financial stability.

Budget Approach

The TCPUD's core value statements and guiding principles were kept in the forefront as we prepared this budget. These core values offer clear and thoughtful direction for achieving community expectations while allowing staff to manage TCPUD operations. The core value statements are as follows:

- PUBLIC HEALTH AND ENVIRONMENTAL PROTECTION
 - TCPUD ensures responsible environmental stewardship, protects the public's health and safety and adheres to appropriate governmental regulations.
- FINANCIAL INTEGRITY AND STABILITY
 - TCPUD establishes and adheres to sound and prudent short and long term financial policies, striving for maximum cost efficiency and diversity of revenue generation that result in long-term sustainability.
- CUSTOMER RELATIONS
 - TCPUD aims to provide superior customer service that balances individual needs with the needs of the entire customer base through responsive communications and public engagement.
- WORKFORCE SAFETY, STABILITY & TRAINING
 - TCPUD develops and maintains appropriate staffing levels of educated, professionally trained, qualified employees, dedicated to protecting the safety, health, well-being and resources of the public.

COMMUNITY LEADERSHIP

 TCPUD supports and encourages community leadership by establishing partnerships, collaborating with other agencies, and advocating proper planning and economic reinvestment, for the benefit of our customers and the overall community.

This year staff identified a need to provide more information in the FY2013 published budget document in order to enhance transparency of TCPUD operations and bring greater understanding to how the budget numbers are achieved. To address this, there have been a number of changes and additions to the format and content of the budget document.

Zero based budgeting (ZBB) is a process that builds a budget from the ground up, and ZBB is used for the vast majority of the TCPUD's budget plan.

Community Fiscal Situation

We are situated in a tourist community at Lake Tahoe, California and weather plays an important role in the cost of services, number of visitors, and various activities in our community. Another key factor is the availability of personal discretionary spending. People will only spend money after necessities are met. Since tourism plays an important economic role in our community we rely on a robust economy that allows visitors to come to Lake Tahoe. TCPUD is directly affected by the well-being of our local businesses and property owners as well as Placer County's collections of Transient Occupancy Tax. Though the last few years we've seen higher numbers of foreclosures and liens on the tax rolls we are beginning to see this trend reverse itself. We are cautiously optimistic our community is moving in a positive direction.

Property Taxes, Rates and User Fees

Property tax represents 39.2% of TCPUD's revenue and is projected to increase 0.2% based on slight increases in the assessed valuation in the unincorporated areas of Placer County, California. Property tax is budgeted to fund 45.6% of capital and reserves, 18.5% for general debt service, and 35.9% for Parks and Recreation operations.

Water and Sewer rate revenues represent 61.4% of TCPUD's revenue and are budgeted to increase 6% for water and 9% for sewer compared to the 2012 budget. We are pleased that these rate increases are lower than those approved by the rate payers. TCPUD regularly evaluates its user rates to ensure we are assessing appropriate fees for the services and capital reinvestment we must provide. The 2013 Board-approved water and sewer rates are set to cover operations and current and future water and sewer capital projects. During the Board meetings and budget workshop the Board was provided scenarios on water and sewer rates and their impacts to the 2013 budget and to the adopted water and sewer rate study's recommendation for capital projects and reserves. Through this thoughtful process the Board approved overall increases to the water and sewer rates while keeping the rates below the voter-approved water and sewer Proposition 218 rates.

The residential water base rates are at the voter-approved Proposition 218 rates, and the residential-tiered water rates on average are 30.7% below the voter-approved Proposition 218 residential-tiered water rates. The commercial base rates on average are 5% below the Proposition 218 commercial water base rates and the commercial water tiered rates are on average 33.9% below the Proposition 218 rates.

The residential and commercial sewer rates are both 27.8% below the voter-approved Proposition 218 rates.

Parks and Recreation revenue represents 6.6% of the TCPUD-wide revenue and is projected to increase by 3.4% from the 2012 budget largely due to increased maintenance grant revenue, increased Lake Forest Boat Ramp usage, and golf course property fees. Also, for FY 2013, a 3% adjustment to some fees for recreation programs were applied to help recover the full cost of these services.

Sources and Use of Fund Reserves

The Board has established strong policies on reserve levels. These reserves are established to address immediate situations such as working capital and emergencies, as well as long-term capital needs and infrastructure renewal. The FY 2013 Budget is planning for an increase to these reserves.

Budget Priorities

Aside from protecting the TCPUD's ongoing financial stability and sustainability, the TCPUD's top priority is preserving and enhancing the high service level the TCPUD is known to provide. The FY 2013 budget provides the financial resources necessary to meet these expectations.

Finally, the adopted budget addresses the Memorandum of Understanding (MOU) we have negotiated with our bargaining unit, which provides for a cost of living adjustment (COLA) based on the November Consumer Price Index for wage increase. This increase was also approved for our non-represented employees. TCPUD also makes available to eligible employees a pension plan. The District's current pension plan is PERS 2.7% @ 55, Single Highest Year program. Starting July 1, 2011, employees began making a contribution of 1% towards the 8% employee contribution portion of the pension plan. Effective January 1, 2012, and each year thereafter, the employee's deduction towards the employee portion of the pension contribution will be increased by an amount equal to 75% of COLA applied for same year until such time the employee is paying the entire 8% employee contribution.

Other factors such as deferred health benefits and employee paid member contributions negotiated with the Union and defined in the MOU are also reflected in the 2013 budget. Additionally, we encouraged employees to voluntarily switch to a lower-premium health insurance by establishing a Health Reimbursement Arrangement, and sharing the annual savings with the participating employees.

Capital Improvement Program

Each year the Board updates the 5-Year Capital Improvement Program (CIP). The CIP provides a schedule of planned improvements over the next 5 years and identifies the TCPUD and grant funding sources that will help pay for those improvements.

The adopted FY 2013 capital budget and 5-year capital program have decreased slightly over this fiscal year, primarily due to changes in water capital. Equally as important as these new capital undertakings is the responsibility to maintain existing TCPUD assets. The capital improvement program includes a number of ongoing programs and one-time projects to perform regular maintenance on infrastructure and to replace those assets that have reached the end of their useful life. We continue to make ourselves available to private and mutual water companies to offer them assistance with their water systems and to assist our taxpayers in addressing water issues that can be addressed through regional efforts.

Conclusion

In summary, the adopted TCPUD 2013 budget operating expense totals are \$8.24 million, which represents a 2.7% decrease over the prior 2012 operating expense budget. The 2013 \$4.6 million TCPUD-funded capital budget for FY 2013 represents a 2.1% decrease over the FY 2012 budget, while the 5-year capital improvement TCPUD-funded program total is \$36.9 million, a 2.3% increase over last year's 5-year capital program.

I believe this budget emphasizes a commitment by all departments to live within their means, implement cost-saving efficiencies wherever possible while maintaining those things that make TCPUD a great contributor to the community and a wonderful place to work.

I wish to thank the Management Team and their staff for their guidance and support throughout the development of this budget.

Sincerely,

Cindy Gustafson General Manager

EXECUTIVE SUMMARY

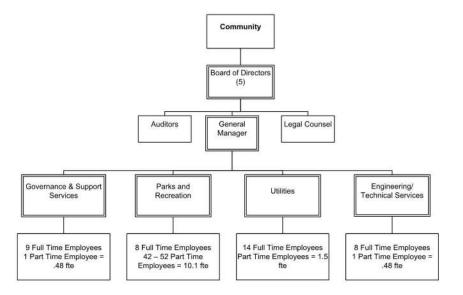

Overview of Tahoe City Public Utility District

The Tahoe City Public Utility District (TCPUD) was founded in 1938 to provide some of the governmental needs of the residents of Tahoe City. It is the oldest local government established in the Tahoe Basin and was formed initially to provide public water service to the local community. Established under the State of California's Public Utility District Act, the founders of TCPUD chose a form of government that could provide multiple types of services. Since its establishment TCPUD has grown both in size and scope of services and now provides sewer collection and transmission for all residences and businesses in the District; water production and distribution services in five separate water systems; and, parks facilities and recreation services throughout the District. It operates and maintains 20 miles of bike trails, parks, beaches, and a boat launching facility, campground and the Tahoe City downtown sidewalks. In addition, TCPUD sponsors numerous recreation programs, operates the Rideout community center and rents community buildings for the benefit of residents and visitors.

Water service is provided in five separate systems and serves approximately half of the homes and businesses in TCPUD.

- Water customers 4,088
- Sewer customers 7,636
- Parks and Recreation customers over 500,000

The boundaries of TCPUD lie within both Placer and El Dorado Counties; extending from Emerald Bay to Dollar Hill, and along the Truckee River to the Nevada County line. The service area is very large, encompassing over 31 square miles. TCPUD is governed by a five person elected Board of Directors. These Directors determine the policies and set the agenda for the TCPUD. The Board appoints a General Manager who oversees the day to day operations of TCPUD. In addition, the Board forms special citizen advisory committees when complicated issues need more community outreach or focused study. Under the direction of General Manager Cindy Gustafson, 39 full time employees and approximately 30 seasonal employees provide the listed services. Employees serve in four departments: Utilities, Parks & Recreation, Engineering, and Governance and Support Services. The following is the District Wide 2013 Organizational Chart:

TCPUD is on a calendar-year (January 1 - December 31) budget cycle and each year the Board of Directors adopts an operating and capital budget. TCPUD uses property tax, user fees, grants and interest income to provide its services.

The following discussion of the TCPUD's budget provides an overview of TCPUD's operational, capital and financing activities for fiscal year 2013.

Budget Operational Highlights

The TCPUD 2013 budget was adopted by the Board of Directors on November 16, 2012. It contains overall net operating revenue increases from prior year budget of 6.2% largely due to the water and sewer rate increases. The 2013 budget expenses reflect a decrease in operating expenses by 2.7%. The reduced cost is largely due to personnel cost savings and utilization of professional services.

The 2013 capital budget is \$6.6 million with \$2.0 million identified for capital grants for a net cost of \$4.6 million in TCPUD-funded capital which is funded from general property tax and user fees.

TCPUD's budget is based on the level of services it is to provide to the community; the residents, rate payers, and users of our facilities. A zero based budget (ZBB) approach is used when determining cost to provide a service or an activity. By using a ZBB approach expenses must be justified from the ground up. Costs such as personnel cost use ZBB approach for seasonal and part-time personnel while assumptions are used for full-time year-round benefited personnel. Other recurring cost such as permits, fees and subscriptions use ZBB.

Each year the staff develops budget assumptions based on current year results and known factors. The following are the 2013 budget assumptions used to develop the 2013 operating budget:

- Consumer Price Index increase 2.0%.
- Local Agency Investment Fund investment earnings percentage 0.36%.
- Placer County Treasurer investment earnings percentage 1.70%.

Labor and Benefit Cost Assumptions:

- Annual merit review increases of 3-5% based on satisfactory to excellent performance (limited at top of range where applicable).
- Cost of living adjustments (COLA) increase for satisfactory or above performance 2.5%.
- Benefit Rates
 - PERS Choice medical insurance rates for California Public Employees' Retirement System (CalPERS) increased 16.2% from 2012.
 - Fund the additional regular contribution (ARC) rate for post-retirement medical benefits for 2013 (\$240,096 annual expense up 2% to last year).
 - o CalPERS Member rate 8.00% (employee estimated to pay 5.3%).
 - Employer Cost Pension Refunding Bonds amortization \$225,000.
 - o CalPERS Employer Retirement contribution % 1/1/13 -6/30/13 is 15.178 %.
 - CalPERS Employer Retirement contribution % 7/1/13 12/31/13 is 17.178%.
 - Worker's Compensation Premiums- Experience modification factor is .80; unchanged from 2012.
 - Health Deferral goes to 60% from 70% as provided in the Memorandum of Understanding.

Utilities rate increases assumptions:

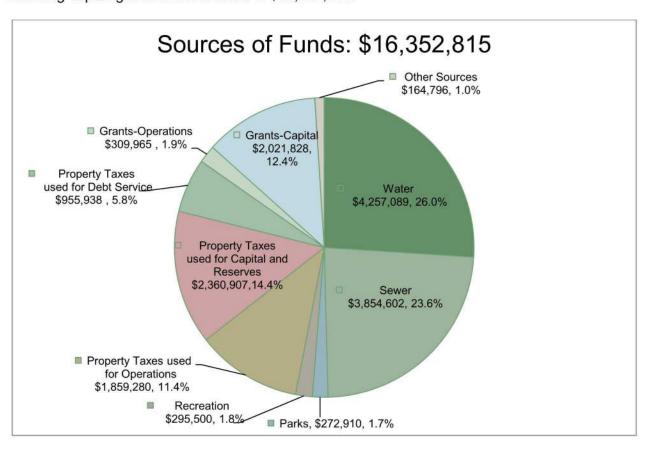

- Telephone 2%
- Power 8%-10%
- Natural Gas 2%
- Fuel -Gasoline (w/ all taxes) \$4.50/gallon

All Insurance (Property, earthquake/flood, General liability) increased by 5%.

Sources and Uses of Funds

The following Sources and Uses of Funds charts show the inflows and outflows of cash. The Sources of Funds chart shows where the cash is coming from while the Uses chart shows how cash is being used.

The following chart shows the 2013 budgeted sources of funds from all TCPUD's activities including capital grants in the amount of \$16,352,815.

Water (26.0%) and sewer (23.6%) revenues make up the largest percentage of sources of funds for TCPUD. Water revenue is derived from the sale of water to residential and commercial customers by charging a base rate on meter size and consumption usage through a tiered rate structure. Sewer revenue is based on connections per residential customer or the number of fixtures for commercial customers.

Property tax revenue is budgeted to increase by 0.2% and is allocated for operations (11.4%), capital (14.4%), and debt service (5.8%) and is the second largest source of income for TCPUD. Property tax revenue is based on the value of property in Placer County, California and El Dorado County, California, within TCPUD boundaries. It is the value upon which taxes are calculated. Taxable value is the base year value of the property (established per Proposition 13) plus the

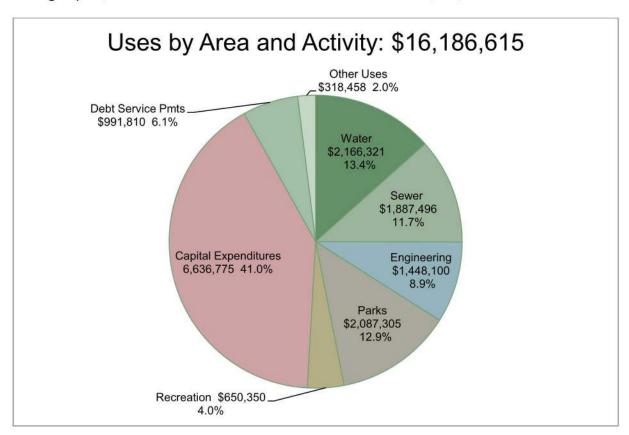

annual inflation factor, or current market value, whichever is lower. TCPUD shares in the property tax collected within its boundaries.

Grant revenue is earmarked for capital expenditures and is 12.4% of the total sources of funds for TCPUD. It will only be realized once we expend the money for specific capital projects. See the Capital Section for a detailed list of the specific projects.

Parks (1.7%) and Recreation (1.8%) revenue make up 3.5% of the total sources of funds and derives its income from user fees and facility rentals.

Grants for operations (1.9%) and Other Sources (1.0%) combined are 2.9% of the sources of funds. They consist primarily of interlocal agency agreements to manage non-TCPUD property and interest income earned on investments.

The following chart shows the 2013 budgeted uses of funds from all TCPUD's operating areas including capital, debt service and other uses in the amount of \$16,186,615.

Reflected in the Uses by Area and Activity chart (above) are staff's best efforts to continually provide quality services to the community and keep cost down. The following budget strategies have been incorporated into the 2013 budget:

- Restructured Workforce:
 - Staff Development
 - Created lead positions.
 - Reinstituted Accountant I position to replace Senior Accountant.
 - Risk Management Team created.
 - Eliminated Recreation Superintendent and added a part-time administration staff to support Parks Management.
 - Pursue use of Work Release Program thereby allowing for a reduction in part-time seasonal staffing.

- Outsourcing Information Technology (IT) Services thereby reducing TCPUD workforce by 1 full-time year-round position while maintaining quality IT services.
- Established a Health Reimbursement Arrangement whereas savings are shared with the participating employees.
- Increased services levels in the following areas while managing cost down.
 - o Parks and Facilities.
 - Recreational Programing.
 - Golf Property Winter Operations.

Debt Administration

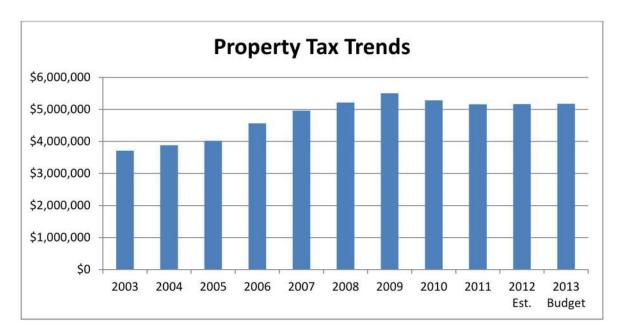

At the end of 2012 the TCPUD had total long-term debt outstanding of \$5.6 million and during 2013 will pay down long-term debt by \$828,088. The Bank of America 2003 loan used to refinance the redemption of the 1993 Series A Certificate of Participation and the acquisition and construction of water and sewer equipment and projects is scheduled to be paid off in May 2013. There is no new borrowing planned in 2013. The following table shows the scheduled 2013 debt service payments.

| Debt Service Payments | Maturity | Rate | <u>Principal</u> | <u>Interest</u> | <u>Total</u> |
|-----------------------|-----------|---------|------------------|-----------------|--------------|
| Bank of America | 2013 | 3.580% | 143,291 | 2,565 | 145,856 |
| Bank of America | 2014 | 4.500% | 71,108 | 4,063 | 75,171 |
| Zions Bank 2M | 2017 | 4.300% | 202,783 | 41,766 | 244,549 |
| Sidewalk Imp Bonds | 2019 | 2.001% | 12,513 | 1,690 | 14,203 |
| Bank of America | 2019 | 4.050% | 261,377 | 73,149 | 334,526 |
| Series C Bonds | 2021 | 1.898% | 32,053 | 6,222 | 38,275 |
| State Revolving Fund | 2028 | 1.800% | 104,963 | 34,267 | 139,230 |
| | | | | | |
| Total Debt E | \$828,088 | 163,722 | \$ 991,810 | | |

Economic Factors and the 2013 Budget

Property taxes are a significant source of revenue for the TCPUD. This revenue source in past years grew relatively rapidly due to average annual growth in assessed values. However the last 3 years of decreased growth in assessed values and a 2013-projected slight increase of 0.2% keeps us cautiously optimistic that property values are leveling out. We've seen approximately 3.2% over the last 10 years. Under California property tax law, assessed value growth is capped at 2%, but when real estate is sold, it is assessed for the new owner based on the purchase price. The national and local residential real estate markets have definitely slowed, and the number of local real estate transactions has remained low during the last few years compared to prior years.

The TCPUD's 2013 budget is flat (0.2%) in general property tax revenue for 2013 compared to 2012. The following table shows the last 10 years of property tax and the 2013 budget.

The State of California continues to experience large budget deficits and may take actions which adversely impact the TCPUD's revenues or expenses. In light of current economic conditions, the TCPUD continues to closely monitor all costs.

On June 4, 2010, the TCPUD filed an action in the Superior Court of the State of California, County of Placer. The action sought to acquire a water system (the Lake Forest System) owned by the defendant, Tahoe Park Water Company, through eminent domain. On January 14, 2011, the TCPUD was granted possession of the Lake Forest System and in October 2013 acquired full ownership.

On September 12, 2012, Governor Brown signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA takes effect January 1, 2013. Basically, PEPRA affects new TCPUD employees hired on or after January 1, 2013 through provisions affecting benefit formulas, the definition of what comprises pensionable earnings, limits on pensionable earnings, and other matters. The new law also calls for new members to pay 50 percent of the normal cost of benefits by 2018. We are currently at full employment and do not anticipate any new employees at this time.

The TCPUD has been approached by the customers or owners of several private water companies TCPUD ownership. In all cases significant capital upgrades would be required to bring these water systems into compliance with TCPUD standards. It is often difficult for these systems to obtain financing for upgrades due to their small size. It is probable the TCPUD will use its borrowing capacity over the next decade to finance upgrades to water systems it acquires and be repaid by special assessments from these new water customers.

The TCPUD's share of unfunded pension liabilities increased sharply following the stock market collapse of 2008. While separate information is not available from CalPERS regarding the TCPUD's share of unfunded liabilities of the pension risk pool it participates in, the funded ratio of the entire pool declined from 85% at June 30, 2008 to 62.6% at June 30, 2010. The TCPUD has already negotiated for employees to contribute a larger share of required pension contributions and addressed the CalPERS investment committee regarding their portfolio allocation. The TCPUD has paid off its almost \$2.3 million side fund liability, which was established at the time the TCPUD's plan was rolled into a multi-agency risk pool and is in addition to the unfunded liabilities of the risk pool.

Financial Contact

The TCPUD's 2013 budget is designed to present users (citizens, taxpayers, customers, vendors and creditors) with a general overview of the TCPUD's budget plans and demonstrate financial accountability. If you have questions about this report or need additional financial information, please contact the TCPUD's Treasurer at 221 Fairway Drive, P.O. Box 5249, Tahoe City, California 96145 or call 530-583-3796 extension 20.

WATER

Water Infrastructure and Resources Policy Statement

TCPUD develops and delivers safe and adequate water supply for District water customers, ensures long-range resource and infrastructure planning for all District taxpayers, and supports improvements that will lead to an efficient and effective integrated regional water system

Water Department 2013 Priorities

The following priorities have been established to meet the Water Infrastructure and Resource Policy statement. They are as follows:

Department Specific Priorities

- Fill Lead Worker-Underground Position
- Provide increased preparation and training for new employee professional certifications

Operational and Project Priorities

- Complete Lake Forest integration and Tahoma Meadows consolidation and pipeline projects
- Provide increased support and management for capital projects and master planning

Department Objectives

- Deploy full use of new maintenance management system software
- o Proactively address utility reliability through monitoring and updated infrastructure
- o Maximize efficiency and performance indicators within the same budget levels
- Continue to increase the level of skills, training, certifications and safety consciousness of employees

Summary of Operations

We serve approximately 4,088 water customers provided quality drinking water in five separate systems through 425,000 feet of water pipe and serves approximately half of the homes and businesses in the District. The water sources include deep groundwater wells as well as treated surface water to provide clean, healthy drinking water that meets all current water quality standards. With a team of dedicated staff, we insure that safe drinking water is available 24 hours a day, seven days a week.

The following table gives a high level view of the direct operational cost to manage these services.

| | Bud | dget | | | |
|------------------------|-------------|-------------|----------|-------|--|
| Expenses by Category | 2012 | 2013 | Amount | % | |
| Personnel | \$969,166 | \$1,001,588 | \$32,422 | 3.3% | |
| Charges and Services | 462,462 | 446,598 | (15,864) | -3.4% | |
| Materials and Supplies | 170,959 | 186,602 | 15,643 | 9.2% | |
| Total | \$1,602,587 | \$1,634,788 | \$32,201 | 2.0% | |

Personnel cost are budgeted to increase by \$32,421 largely due to cost of living adjustments, merit adjustments and health care increases. Other 2013 staffing changes not impacting cost is also reflected in 2013 operating plan and were made to address comprehensive cross-training, succession planning, and parity amongst position such as. These changes are reflected below and impact both water and sewer operations.

Field Supervisor – Underground position is eliminated.

- Lead Worker Underground position created.
- Lead Worker Pump Stations position created. This position will not be filled until retirement/separation of current Field Supervisor – Pump Stations.
- Lead Worker Electrician position created.
- Field Supervisor Pump Stations to remain filled as is until retirement/separation of the current employee. Backfill of that position will occur with the Lead Worker – Pump Stations position and the Field Supervisor – Pump Stations position will be eliminated at that time.
- Current Field Supervisor Pump Stations to remain the same including all future COLAs within this and future contract periods.
- Full Salary Survey to be completed for all classifications prior to November 1, 2014.

Water staffing levels are budgeted at the same levels of 2012 at 7.14 full- time and .765 part-time for a total of 7.91 full-time equivalents.

| | Budg | et | | |
|-----------------------------|------|------|-------------|------|
| _ | 5555 | | Change in | |
| Full Time Equivalents (FTE) | 2012 | 2013 | FTE | % |
| Full Time Year Round | 7.14 | 7.14 | - | 0.0% |
| Part Time / Seasonal | 0.77 | 0.77 | 20 0 | 0.0% |
| | 7.91 | 7.91 | | 0.0% |

Other changes in operational cost resulted in a net \$221 decrease budget on budget. This is a result of a \$15,864 cost savings in water tank inspections and a decrease in required water quality testing.

Revenue and Rates

The following table show what makes up the water revenue by description and amounts:

| | Budget | | | | |
|-----------------------------------|-------------|-------------|-----|-----------------|-------|
| | 2012 | 2013 | - 1 | ncrease | % |
| Water Sales | \$3,912,034 | \$4,146,559 | \$ | 234,525 | 6.0% |
| Water Sales to TCPUD Parks Depart | 45,000 | 45,000 | | :: - | 0.0% |
| Connection Fees | 12,000 | 12,000 | | - | 0.0% |
| Cellular Antenna Lease | 17,280 | 17,280 | | - | 0.0% |
| Other Revenue | 10,000 | 10,000 | | | 0.0% |
| Permit and Inspection Fees | 23,328 | 26,250 | | 2,922 | 12.5% |
| Total | \$4,019,642 | \$4,257,089 | \$ | 237,447 | 5.9% |

Water sales are 97.4% of the total water revenue. The residential and commercial water rate structure that generates the water sales is designed to meet the needs of providing water services to its 4,088 water customers and to meet the current and future water capital improvements. It consists of a flat monthly rate based on meter size and a charge per 1,000 gallons based on tiers for both residential and commercial customers.

The residential and commercial water base rates did not change from last year and are currently at the adopted Proposition 218 rates that take effective April 1, 2013.

The tiered consumption rates for residential customers changed and commercial customers remained flat from last year. The following table compares 2012 tiered consumption rates to the 2013.

Approved Rolled Backed Rates

| 2012 | 2013 | Increase | % |
|--------|--------------------------------------|---|--|
| | | | |
| \$1.40 | \$1.45 | \$0.05 | 3.6% |
| \$1.85 | \$2.05 | \$0.20 | 10.8% |
| \$2.35 | \$3.65 | \$1.30 | 55.3% |
| \$5.00 | \$8.25 | \$3.25 | 65.0% |
| | | | |
| \$4.35 | \$4.35 | \$0.00 | 0.0% |
| \$5.70 | \$5.70 | \$0.00 | 0.0% |
| | \$1.40 \$1.85 \$2.35 \$5.00 | \$1.40 \$1.45 \$1.85 \$2.05 \$2.35 \$3.65 \$5.00 \$8.25 \$4.35 \$4.35 | \$1.40 \$1.45 \$0.05 \$1.85 \$2.05 \$0.20 \$2.35 \$3.65 \$1.30 \$5.00 \$8.25 \$3.25 \$4.35 \$4.35 \$0.00 |

Tiered consumption rates have consistently remained under the adopted Proposition 218 rates due to staff's efforts to keep expenses lower than what was projected in the original HDR rate study. The following table compares the adopted Proposition 218 rates to the Board approved rolled back rates that take affect April 1, 2013.

2013 Tiered

| | Consump | tion Rates | | |
|-----------------------------------|----------|-------------|----------|--------|
| Tiered Consumption | Prop 218 | Rolled Back | Decrease | % |
| Residential consumption per 1,000 | | | | |
| 0 - 8,000 gal/month | \$2.80 | \$1.45 | (\$1.35) | -48.2% |
| 8,001 - 20,000 gal/month | \$3.65 | \$2.05 | (\$1.60) | -43.8% |
| 20,001 - 40,000 gal/month | \$4.70 | \$3.65 | (\$1.05) | -22.3% |
| In excess of 40,000 gal/month | \$9.00 | \$8.25 | (\$0.75) | -8.3% |
| Commercial consumption per 1,000 | | | | |
| 0 - 8,000 gal/month | \$7.60 | \$4.35 | (\$3.25) | -42.8% |
| In excess of 8,000 gal/month | \$7.60 | \$5.70 | (\$1.90) | -25.0% |

2013 Water Capital Improvements

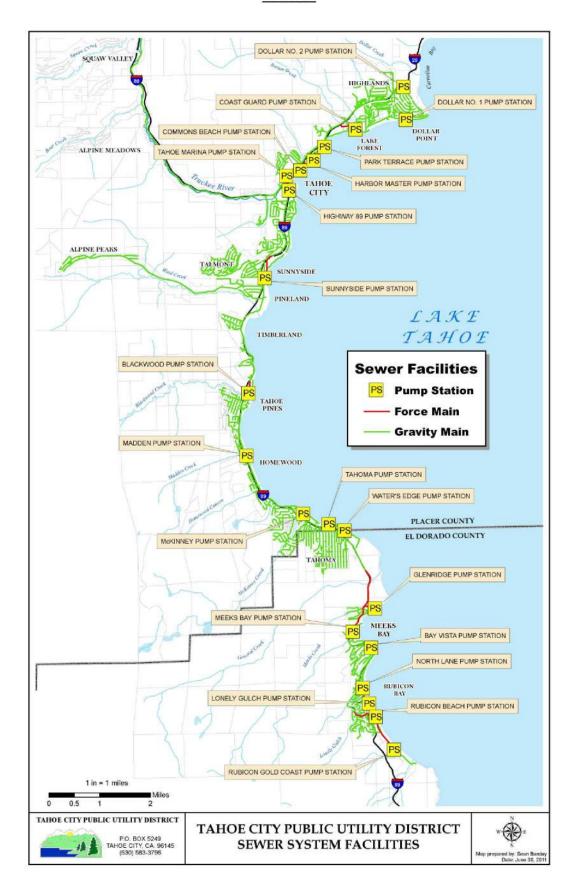

Below is 2013 year 1 of a 5 year capital plan for the Water Department. More detail information on the capital plan can be found in the Capital Section. The primary focus of the capital plan in 2013 is the reconstruction of the Lake Forest Water System and the consolidation of the Tahoma Meadows Water System. The remainder of the projects focuses on distribution system improvements to improve fire flows, and replacing or rehabilitating aging and/or leaking infrastructure.

SEWER

Wastewater Collection and Export Policy Statement

TCPUD ensures public health and environmental protection while collecting and exporting wastewater through the continuous implementation of best practices in preventive maintenance, infrastructure renewal, and emergency response

Sewer Department 2013 Priorities

The following priorities have been established to meet the Wastewater Collection and Export Policy statement. They are as follows:

Department Specific

- Begin internal Sewer TV work and evaluate cost and efficiency factors
- o Provide increased preparation and training for employee professional certifications

Operational and Project Priorities

- Complete Sewer Station Flow Meter Project
- Complete scheduled sewer pump and control upgrades
- Continue implementation of sewer system rehabilitation projects
- Provide technical and administrative support for sewer master plan efforts

Department Objectives

- Deploy full use of new maintenance management system software
- o Proactively address utility reliability through monitoring and updated infrastructure
- o Maximize efficiency and performance indicators within the same budget levels
- Continue to increase the level of skills, training, certifications and safety consciousness of employees

Summary of Operations

We serve approximately 7,636 sewer customers. We accomplish this through the management and operation of 9 main lift stations, 12 satellite lift station, 121 miles of gravity collection and export line, and 6.4 miles of force mains. On an average we move 1 million of sewage daily.

With a team of dedicated staff, we insure that our sewer facilities are operational 24 hours a day, seven days a week.

The following table gives a high level view of the direct operational cost to manage these services.

| | Bud | dget | | |
|------------------------|-------------|-------------|----------|-------|
| Expenses by Category | 2012 | 2013 | Amount | % |
| Personnel | \$881,367 | \$917,350 | \$35,983 | 4.1% |
| Charges and Services | 459,122 | 422,817 | (36,305) | -7.9% |
| Materials and Supplies | 136,688 | 136,866 | 178 | 0.1% |
| Total | \$1,477,177 | \$1,477,033 | (\$144) | 0.0% |

Personnel cost are budgeted to increase by \$35,983 largely due to cost of living adjustments, merit adjustments and health care increases. Other 2013 staffing changes not impacting cost is also reflected in 2013 operating plan and were made to address comprehensive cross-training, succession planning, and parity amongst position such as. These changes are reflected below and impact both water and sewer operations.

- Field Supervisor Underground position is eliminated.
- Lead Worker Underground position created.
- Lead Worker Pump Stations position created. This position will not be filled until retirement/separation of current Field Supervisor – Pump Stations
- Lead Worker Electrician position created.
- Field Supervisor Pump Stations to remain filled as is until retirement/separation of the current employee. Backfill of that position will occur with the Lead Worker – Pump Stations position and the Field Supervisor – Pump Stations position will be eliminated at that time.
- Current Field Supervisor Pump Stations to remain the same including all future COLAs within this and future contract periods.
- Full Salary Survey to be completed for all classifications prior to November 1, 2014.

Sewer staffing levels are budgeted at the same levels of 2012 at 6.86 full- time and .735 part-time for a total of 7.60 full-time equivalents.

| | Bud | get | | |
|-----------------------------|-------|-------|---------------|------|
| Full Time Equivalents (FTE) | 2012 | 2013 | Change in FTE | % |
| Full Time Year Round | 6.860 | 6.860 | =: | 0.0% |
| Part Time / Seasonal | 0.735 | 0.735 | | 0.0% |
| | 7.595 | 7.595 | ¥41 | 0.0% |

Other changes in operational cost resulted in a net savings of \$36,127 for charges and services and material and supplies budget on budget. This is largely a result of a \$35,984 cost savings due to reduction in contract TV work offset by in house TV work.

Revenue and Rates

The following table show what makes up the sewer revenue by description and amounts:

| | Buc | dget | | | |
|-----------------|-------------|-------------|----|-------------|------|
| | 2012 | 2013 | l | ncrease | % |
| Sewer Fees | \$3,489,990 | \$3,815,352 | \$ | 325,362 | 9.3% |
| Connection Fees | 10,000 | 10,000 | | 92 <u>4</u> | 0.0% |
| Other Revenue | 3,000 | 3,000 | | | 0.0% |
| Total | \$3,502,990 | \$3,828,352 | \$ | 325,362 | 9.3% |

The residential and commercial sewer rate structure that generates the sewer revenue is designed to meet the needs of providing server services to its 7,636 sewer customers and to meet the current and future sewer capital improvements.

The sewer rates were increased by 9% from last year but are still below the adopted Proposition 218 rates by 27.8%. The 2013 sewer rates take effective April 1, 2013.

Adopted Sewer Rates

TAHOE CITY PUBLIC UTILITY DISTRICT 2013 SEWER RATES STARTING APRIL 1, 2013 BILLING

The Sewer Joint Facilities department 20-23 represents the cost associated to manage the Dollar Hill joint sewer facilities with the North Tahoe Public Utility District (NTPUD). The maintenance, operations, and administration cost of the joint facilities is shared by both TCPUD and NTPUD based on total annual flow.

2013 Sewer Capital Improvements

Below is 2013 year 1 of a 5 year capital plan for the Sewer Department. More detail information on the capital plan can be found in the Capital Section. The primary focus of the capital plan in 2013 is the Tahoe City Residential Sewer System Rehabilitation commencing with planning and design work in 2013. Other project priorities include pump and control upgrades, sewer flow meters and pump station bypass facilities. The primary objective of all of the projects is to improve the reliability and redundancy of the collection system and reduce the risk of sanitary sewer overflows.

ENGINEERING

INFRASTRUCTURE PLANNING AND PROJECT DELIVERY

TCPUD ensures that District and other public and private projects are properly planned, engineered, and implemented to protect and improve the taxpayers' infrastructure assets.

2013 Priorities

Engineering:

- Create an informal bidding policy and procedure.
- o Rubicon Water System Model and Master Plan.
- Complete the Parks & Facilities GIS mapping and database.
- Develop and roll-out a GIS web application (District and Departmental).
- Complete Computerized Maintenance Management System (CMMS) implementation.
- Complete implementation of Document Management System.
- Begin Sewer Master Plan.
- Create and maintain Engineering/Projects website pages.
- o Complete project closeout for remaining backlog and establish procedures.
- Continue updating District Engineering Standards (Construction Details & Specifications).

Technical Services:

- Integrate TCPUD's plan review process into Placer and El Dorado Counties online processes.
- Survey Lake Forest and Tahoma Meadows customers for cross-connections and bring into compliance.
- Inspect cross-connection Risk Category 1 and 2 commercial properties and bring into compliance.
- Target FSEs in Harbor Master flow basin for reducing grease buildup at TCPUD pump station.
- Streamline the Development Agreement process and improve cost recovery.

Summary of Operations

The Engineering group consists of four Departments; Technical Services, Engineering, Special Studies/Projects, and Projects. Staff within the Engineering group work across all these Departments depending on assigned duties.

The Technical Services Department is responsible for all residential and commercial permitting, sewer and water ordinance development and enforcement, development-related utility infrastructure design and construction, and associated customer service.

The Engineering Department is responsible for general oversight of the Engineering group, providing technical support to other departments, operating budget creation and management, infrastructure system mapping and databases (GIS), asset management, design and construction

standards, other governmental and permitting agency relations, non-capital project management, and technical policies and procedures.

The Special Studies/Projects Department is responsible for master planning and other studies, reports or project that are not capital expenditures. This Department was set up to capture consulting and other related expenses for preparing these occasional special studies and its budget is highly variable, year to year.

The Projects Department is responsible for planning, designing, permitting, and constructing a wide variety of Capital Improvement Projects within the Utilities and Parks & Recreation Departments. These projects vary from neighborhood waterline replacements to the new Lakeside Trail.

The following three tables give a high level view of the direct operational cost to manage these services.

| _ | Budget | <u> </u> | | |
|---|-----------|-------------|------------|--------|
| Technical Services and Engineering Expenses by Category | 2012 | 2013 | Amount | % |
| Personnel | \$795,437 | \$888,302 | \$92,865 | 11.7% |
| Charges and Services | \$135,428 | \$105,415 | (\$30,013) | -22.2% |
| Materials and Supplies | \$13,317 | \$20,783 | \$7,466 | 56.1% |
| Total | \$944,182 | \$1,014,500 | \$70,318 | 7.4% |

| | Budget | | | |
|------------------------|-----------|-----------|-------------|--------|
| Special Studies | 175 | 10 | | |
| Expenses by Category | 2012 | 2013 | Amount | % |
| Personnel | | | \$0 | n/a |
| Charges and Services | \$391,000 | \$131,700 | (\$259,300) | -66.3% |
| Materials and Supplies | | | \$0 | n/a |
| Total | \$391,000 | \$131,700 | (\$259,300) | -66.3% |

| | Budget | | | |
|------------------------|-----------|-----------|------------|-----------|
| Engineering Projects | 2.20.2 | 01.00 | | |
| Expenses by Category | 2012 | 2013 | Amount | <u></u> % |
| Personnel | \$340,210 | \$278,096 | (\$62,114) | -18.3% |
| Charges and Services | \$700 | \$700 | \$0 | 0.0% |
| Materials and Supplies | \$250 | \$250 | \$0 | 0.0% |
| Total | \$341,160 | \$279,046 | (\$62,114) | -18.2% |

Personnel cost increase of \$92,865 in the combined Technical Service and Engineering Departments is partially a result of the reallocation of existing staff time from the Projects Department to these Departments (note \$62,114 personnel cost decrease in Projects Department). The remaining net personnel cost increase of \$30,751 (2.7%) is a result of cost of living adjustments, merit increases, health care cost increases, corrections of various benefit allocations, a full year of the permanent Construction Inspector II, the elimination of the part-time

seasonal Construction Inspector position (never filled in 2012), and the transfer of a portion of the Engineering Systems Coordinator time to the Parks and Governance & Support Services Departments.

The following full time equivalents table combines Technical Services, Engineering, and Projects Departments and compares to the 2012 budget. Overall, FTE decreases by 0.38 due a combination of the following; a full year of the permanent Construction Inspector II, elimination of the part-time seasonal Construction Inspector position, and allocation of a small portion of the Engineering Systems Coordinator time to Parks Department and to Governance Support Services.

| | Budge | | |
|-----------------------------|-------|------|---------------|
| Full Time Equivalents (FTE) | 2012 | 2013 | Change in FTE |
| Full Time Year Round | 7.80 | 7.81 | 0.01 |
| Part Time / Seasonal | 0.87 | 0.48 | (0.39) |
| | 8.67 | 8.29 | (0.38) |

Estimated permit and inspection fee recovery of Technical Services and Engineering Departments personnel cost is budgeted at \$52,500 (5.2%) and the estimated grant and capital recovery of Project Department personnel expenses is budgeted at \$337,898 (122%).

Charges and services are decreasing overall due to a one-time 2012 budget for Consultant Fee not re-budgeted in 2013. Legal fees are budgeted to increase by \$7,900 for the development of an informal bidding policy; development agreement re-write; and ordinance enforcement support. Software Licenses & Renewals are budgeted at \$14,454 and are increasing budget to budget due to the new systems such as AutoCAD; ESRI GIS (share); VueWorks (share); Laserfiche; Trimble GPS; Tokay backflow.

Training is budgeted at \$15,657 and is \$3,378 lower than last year's budget. Training is considered for the Construction Inspector II (Backflow, Dist. 2, Treat 2, Collection 2); Technical Services Supervisor (supervisory/management training); Engineering System Coordinator (ArcGIS Server, user conference); and other general training for remaining staff

Special Studies charges and services decrease of \$259,300 budget to budget is the result of decreases in special studies for various study plans. See the following Department 20-36 Special Studies schedule for details.

The 2013 Budget includes water conservation rebates of \$10,000.

2013 Engineering Capital Project Priorities

Below is the Engineering's Department 2013 capital project priority list:

- Completion of Lake Forest System Reconstruction
- o Four Seasons Tank Line Replacement & Woodview-Woodhill Water Main Connection
- West Lake Tahoe Regional Water Treatment Plant
- Homewood Bike Trail
- o Tahoma Meadows Mutual Water Company Acquisition & Transmission Main
- Highway 89 Water Line Conductor Casing Crossings
- West Shore Export Truckee River Crossing Rehabilitation
- Tahoe City Sewer System Rehabilitation

- WCB Boat Ramp Rehabilitation
- Dollar-Edgewater Sewer Line Protection
- o Upper Ellis Road and Grouse Drive water line replacements
- o Administrative Building and Yard BMP Compliance
- Emergency Sewer Bypass Facilities (Satellite/Main/Force Main)
- o Tahoe City Golf Course BMPs
- o Bunker Water Tank Replacement
- o Tahoe City Well No. 1 Replacement

2013 Engineering Capital Improvements

The Technical Services Department's office modifications for \$7,500 is the only capital project planned for 2013. More detail information on the capital plan can be found in the Capital Section.

PARKS AND RECREATION

PARKS AND RECREATION

The Parks and Recreation Department is committed to providing quality parks and recreational services to its residents, rate payers and community. We encourage and support community participation in the improvement and development of our parks and recreation offerings. We approach parks and recreation with a balanced approach; weighing desired and needed services against the cost to provide them. The Parks and Recreation budget provides for increased services while reducing overall cost. The Parks and Recreation Department operates and maintains 20 miles of bike trails, parks, beaches, a boat launching facility, a campground and the Tahoe City downtown sidewalks. In addition, the District sponsors numerous recreation programs, operates the Rideout Community Center and rents community buildings for the benefit of residents and visitors.

Operating grants are used to help support parks and recreation facilities and programs. A Placer County Maintenance Service agreement addresses Lake Forest Beach Park, Commons Beach Park, Heritage Plaza, Customs House, Squaw Valley Park and bike trails. The State of California Department of Transportation Maintenance Agreement addresses maintenance of the bike trails. The areas maintained are State Route 89 from Sugar Pine Point State Park to Squaw Valley Road and State Route 28 from 400 feet north of Jack Pine Avenue to Dollar Drive. The State of California – Department of Boating & Waterways grant supports the sailing program.

Overall tax revenue subsidy decreased by \$71,239 budget to budget largely due to the elimination of the Recreation Superintendent position.

PARKS DEPARTMENT

Park, Recreation and Community Facilities Policy Statement

TCPUD plans, develops, operates and maintains quality park, trail and recreation facilities to serve residents, property owners and visitors.

Department 2013 Priorities

The following priorities have been established to meet the Parks, Recreation and Community Facilities Policy Statements. They are as follows:

- Increase programming and participation at Rideout Community Center.
- Implementation of Parks and Recreation Department restructure.
- Complete and implement asset inventory of parks facilities through Geographical Information System (GIS).
- Implement Computerized Maintenance Management System (CMMS) for Parks Department using GIS asset inventory information.
- Implement concession at Commons Beach for kayaks and paddleboards.
- Overlay Truckee River Trail.
- Investigate Golf Course capital projects and winter operations.
- Review options for future uses at Fairway and Tahoe Community Centers.
- Rehabilitate Boat Launch ramp with outside funding.

Summary of Operations

The Parks Department operates and maintains for the benefit of its community 7 athletic fields, 9 community parks, 3 beach parks, campground, boat ramp, 6 tennis courts, dog park, 22 miles of trails and 5 community buildings receiving over 1 million user visits annually. Also, the Parks Department oversees the Nordic center, 5 playgrounds, river ingress/egress facilities, 2 portable stages, sidewalks and 118 streetlights, 4 public plazas and Tahoe City Wye islands.

The following Tax Revenue Subsidy table compares, budget to budget, the tax revenue subsidy required to provide parks service to the community. In almost every Parks Department less tax revenue subsidy is needed to cover the department's operations. This is due to increased revenues in some departments and by holding cost down in others. The parks departments requiring greater tax revenue subsidy are Community Buildings in the amount of \$4,925 due to the loss of a key tenant with no replacement tenant. Sidewalk Fees increased tax revenue subsidy in the amount of \$16,568 is due to the allocation of parks allocable and parks and recreation administration not charged to the Sidewalk Department in prior years. Lastly, the Golf Course Property was not contemplated in the 2012 budget plan and requires tax revenue subsidy to get its winter operations off the ground.

| | Budget | | | | | |
|--------------------------------------|--------|-----------|------|-----------|-------------|--------|
| Tax Revenue Subsidy | | 2012 | | 2013 | Inc. (Dec.) | % |
| Athletic Fields and Courts | \$ | 320,833 | \$ | 313,411 | \$ (7,422) | -2.3% |
| Beaches | | 158,976 | | 156,404 | (2,572) | -1.6% |
| Public Access Boat Ramp & Campground | | 129,464 | | 82,008 | (47,456) | -36.7% |
| Community Buildings | | 378,474 | | 383,399 | 4,925 | 1.3% |
| Parklands | | 305,624 | | 295,679 | (9,945) | -3.3% |
| Property Management | | 26,302 | | 5,456 | (20,846) | -79.3% |
| Sidewalk Fees | | 21,159 | | 37,727 | 16,568 | 78.3% |
| Recreation Trails | | 185,135 | | 180,709 | (4,426) | -2.4% |
| Golf Course Property | | = | | 66,387 | 66,387 | n/a |
| Total | \$ | 1,525,967 | \$ 1 | 1,521,180 | \$ (4,787) | -0.3% |

Budget

The following table gives a high level view of the direct operational cost to manage the parks department's services.

| | Buc | dget | | |
|-----------------------------|-------------|-------------|----------|--------|
| Direct Expenses by Category | 2012 | 2013 | Amount | % |
| Personnel | \$759,836 | \$820,548 | \$60,712 | 8.0% |
| Charges and Services | 531,158 | 555,385 | 24,227 | 4.6% |
| Materials and Supplies | 114,300 | 109,471 | (4,829) | -4.2% |
| Parks and Rec. Admin | 220,415 | 170,924 | (49,491) | -22.5% |
| Total | \$1,625,709 | \$1,656,328 | \$30,619 | 1.9% |

Overall costs are increasing \$30,619 or 1.9%. Personnel cost is budgeted to increase by \$60,712 (8%) partially due to cost of living adjustments, merit adjustments and health care increases. Other 2013 staffing changes impacting cost are an allocation of the District mechanic and engineering staff that support park's operation. The budget also contains a modest promotional opportunity, and the addition of a part-time administrative secretary.

Charges and Services increase is due to consultant fees increasing for staff training for computerized maintenance management system and increases in services, materials and supplies for potential winter recreation operations at the golf course property. Also anticipated is a decrease in utility charges based on energy saving improvements in parks facilities.

Parks staffing levels decreased by 0.21full-time equivalents as indicated below.

| Budg | get | | |
|-------|-----------------------|--------------------------|--|
| | | Change in | |
| 2012 | 2013 | FTE | % |

| Maintenance Grants | | 266,660 | | 293,215 | | 26,555 | 10.0% |
| Tax Revenue | 1 | ,525,967 | | 1,524,180 | | (1,787) | -0.1% |
| Total | \$2 | 2,069,267 | \$2 | 2,087,305 | \$ | 18,038 | 0.9% |

Dudget

Rental of the athletic fields and courts are down due to actual revenues from 2012. We had fewer rentals of ball fields for tournaments then expected in 2012 and don't anticipate additional tournaments in 2013. We're budgeting for a 33.3% increase at the boat due to 2012 actual estimated sales and use for the boat ramp. This is attributed to good boating weather the summer and flexible boating hours. Rental of our community buildings are budgeted to decline due to the loss of a tenant and at the time of at the time of this budget we had no prospects to rent the vacated facility. Rate schedules for all facilities are located in the Rate Schedule Section.

The golf course property was purchased in April 2012 and operated for the 2012 summer season. A conservative \$20,910 for revenue represents only the minimum lease payment due to TCPUD from summer activity and assumes no additional participation in gross revenue exceeding \$410,000 as outlined in the lease agreement. Currently, plans to provide 2012/2013 winter operations at the golf course property are underway but no revenues have been budgeted for 2013.

Maintenance grants increased by \$26,555 due to the addition of the Placer County Transit Center to District's existing Maintenance Service Agreements with Placer County. Staff will be providing minimal services at the Transit Center.

Tax revenue needed to balance the parks budget is slightly less to last year by \$1,787. This is due to a combination of additional revenue from operations, increased direct cost of \$30,619, and lower governance & support services allocation of \$12,581.

<u>2013 rate increases</u> are calculated by taking 2008 rates as a base, then applying a 5% increase in 2009 and 3% increase each year thereafter.

<u>Merit</u> = Recreation programs, quasi-recreation groups, i.e. Boy Scouts, Girl Scouts, youth groups, etc. <u>Government or Non-Profit Groups</u> - Public Non-Profit groups and organizations, i.e. clubs and associations which are determined to be for the general welfare of the community; cultured arts activities that have a prime objective of civic or recreational nature.

Private - Weddings, receptions, private parties, business groups, functions for profit, also non-profit group

2013 Parks Capital Improvements

Below is 2013 year 1 of a 5 year capital plan for the Parks Department which totals \$1,234,371; of which District-funded is \$602,875 and grant-funded is \$631,496. The District-funded primarily consists of the Truckee River Overlay for \$380,000 and the Golf Course Property BMP for \$124,041. The three grant-funded projects are; Truckee River Access, Homewood Trail, and Lakeside 2C. See the Capital Section for additional information on Parks current and future capital projects.

| | 2013 Parks District Funded | Amount |
|----|---------------------------------|-------------|
| 1 | Rideout Furniture | 10,000 |

RECREATION DEPARTMENT

Recreation Programs and Services Policy Statement

TCPUD promotes and facilitates a wide variety of recreation and leisure activities and services for residents, property owners and visitors of all ages.

Department 2013 Priorities

The following priorities have been established to meet the Recreation Policy Statement. They are as follows:

- Increase programming and participation at Rideout Community Center.
- Implementation of Parks and Recreation Department restructure.
- Complete and implement asset inventory of parks facilities through Geographical Information System (GIS).
- Implement concession at Commons Beach for kayaks and paddleboards.
- Investigate Golf Course capital projects and winter operations.
- Review options for future uses at Fairway and Tahoe Community Centers.

Summary of Operations

The Recreation Department provides quality indoor and outdoor recreation programs, activities and community events for all age groups and strives to provide the best experiences to meet the needs of our community. The Recreation Department served over 75,000 users through 65 programs in 2012 with the Commons Beach concerts being the largest; serving over 12,000 participants. We plan to increase overall participation in 2013.

Each year the Recreation Department strives to recover some, if not all, of the direct cost each program incurs. Adult programing strives to recover 100% of their direct cost and youth programs strive to cover, at a minimum, 50%. Below are the budgeted cost recovery goals set for each major programing area.

| | Bud | lget |
|-----------------------------|------|------|
| Cost Recovery Goals | 2012 | 2013 |
| Aquatics | 92% | 79% |
| Adult Sports | 101% | 86% |
| Kidz Club | 66% | 56% |
| Day Camp | 118% | 102% |
| Special Events | 52% | 57% |
| Youth Sports | 57% | 66% |
| Rideout Recreation Programs | 57% | 93% |
| Average Cost Recovery % | 78% | 77% |
| | | ,0 |

The following Tax Revenue Subsidy table compares budget on budget the tax revenue subsidy required to provide recreation services to the community and shows the Recreation Department requiring less tax revenue subsidy by \$66,452. Each resident pays annual property taxes which

are used to help subsidize recreation services. Since residents of the TCPUD pay property taxes, they receive a discount on all recreation programs.

| | 10. | Bud | get | | | |
|-----------------------------|-----|---------|-----|---------|-------------|--------|
| Tax Revenue Subsidy | | 2012 | | 2013 | Inc. (Dec.) | % |
| Aquatics | \$ | 71,348 | \$ | 81,468 | \$ 10,120 | 14.2% |
| Adult Sports | | 35,856 | | 35,514 | (342) | -1.0% |
| Kidz Club | | 34,348 | | 40,961 | 6,613 | 19.3% |
| Day Camp | | 51,265 | | 52,868 | 1,603 | 3.1% |
| Special Events | | 97,039 | | 74,223 | (22,816) | -23.5% |
| Youth Sports | | 27,491 | | 21,000 | (6,491) | -23.6% |
| Rideout Recreation Programs | | 87,205 | | 32,066 | (55, 139) | -63.2% |
| Total | \$ | 404,552 | \$ | 338,100 | \$ (66,452) | -16.4% |

The following tables give a high level view of the direct operational cost to manage the Recreation Department's services. The first table is by category and the second table is by area.

| | Bud | get | 20 | |
|-----------------------------|-----------|-----------|-------------|--------|
| Direct Expenses by Category | 2012 | 2013 | Inc. (Dec.) | % |
| Personnel | \$293,590 | \$297,746 | \$4,156 | 1.4% |
| Charges and Services | 136,423 | 116,155 | (20,268) | -14.9% |
| Materials and Supplies | 28,775 | 23,205 | (5,570) | -19.4% |
| Parks and Rec. Admin | 68,933 | 50,298 | (18,635) | -27.0% |
| Total | \$527,721 | \$487,404 | (\$40,317) | -7.6% |

| | | Bud | get | 9 | | |
|-----------------------------|----|---------|-----|---------|-------------|--------|
| Direct Expenses by Area | | 2012 | | 2013 | Inc. (Dec.) | % |
| Aquatics | \$ | 107,318 | \$ | 116,890 | \$ 9,572 | 8.9% |
| Adult Sports | | 51,076 | | 55,095 | 4,019 | 7.9% |
| Kidz Club | | 39,442 | | 46,436 | 6,994 | 17.7% |
| Day Camp | | 106,051 | | 103,325 | (2,726) | -2.6% |
| Special Events | | 103,481 | | 84,480 | (19,001) | -18.4% |
| Youth Sports | | 27,960 | | 26,231 | (1,729) | -6.2% |
| Rideout Recreation Programs | _ | 92,393 | | 54,947 | (37,446) | -40.5% |
| Total | \$ | 527,721 | \$ | 487,404 | \$ (40,317) | -7.6% |

Overall costs are decreasing \$40,317 or 7.6%. Personnel cost is budgeted to increase by \$4,156 (1.4%); included in this number are a multitude of impacts such as the elimination of the Recreation Superintendent position, reclassification of swim instructors from independent contractors to employees, promotion of existing staff, additional part-time hours, cost of living adjustments, merit adjustments and health care increases.

Charges and Services decrease is largely due to the reclassification of swim instructors to employees. Material and Supplies decrease is due to reduced sailing program cost.

Recreation staffing levels decreased by 1.0 full-time equivalent as indicated below. As mentioned earlier the Recreation Superintendent position is permanently eliminated.

| _ | Budg | et | | |
|---|------|------|-----------|--------|
| ======================================= | | | Change in | |
| Full Time Equivalents (FTE) | 2012 | 2013 | FTE | % |
| Full Time Year Round | 3.00 | 2.00 | (1.00) | -33.3% |
| Part Time / Seasonal | 4.40 | 4.40 | | 0.0% |
| | 7.40 | 6.40 | (1.00) | -13.5% |

Revenue and Rates

Overall, revenue is down about \$59,062 (8.3%) due to less tax revenue subsidy and day camp revenue. Select program fees increased 3%. The following table shows recreation revenue by area and amounts.

| | Bud | get | | | |
|-----------------------------|---------------|-----|---------|-------------|--------|
| Recreation Revenue | 2012 | | 2013 | Inc. (Dec.) | % |
| Aquatics | \$ 58,710 | \$ | 62,000 | \$ 3,290 | 5.6% |
| Adult Sports | 37,000 | | 38,000 | 1,000 | 2.7% |
| Kidz Club | 18,750 | | 21,000 | 2,250 | 12.0% |

GOVERNANCE AND SUPPORT SERVICES

Governance and Support Services Policy Statement

TCPUD prioritizes responsible and effective management, fiscal accountability, integrated planning, community involvement, revenues from outside resources, public responsiveness, technological advancement, and safety in the delivery of all of its services.

2013 Priorities

- Complete reorganization of the Accounting and Information Technology Departments to maximize effectiveness of current District resources.
 - Redirect savings from outsourcing IT to other District priorities
 - Retirement of key accounting personnel allows for a measured reorganization
 - Address additional support needs for Accounting department
- Work with new Auditors to provide seamless transition for Board and staff.
- Enhance support for operating departments through new and timelier reporting.
- Secure outside funding for District projects/grants and public/private partnerships.
- Proactively educate, inform and engage customers re: District plans and activities.
- Develop and implement a document management plan for the District.
- Make improvements in website and Granicus systems for accountability and public ease of use.
- Maintain participation in local and regional planning efforts (County and TRPA).
- Continue participation in legislative efforts for Federal and State funding.
- Complete revisions to Personnel Policy Manual.
- Update and revise Safety Program Procedures.
- Implement Accounts Payable Scanning Project eliminate paper invoices by scanning, routing and filing an electronic invoice image.
- Implement a Fixed Asset system integrated with the District's financial system.
 - Allow single entry of information vs. double entry now used and tie to sheets maintained by ACWA/JPIA
- o Create and maintain District-wide Information Technology (IT) plan and policies.
- Develop and use tracking systems to quantify and measure work load.

Summary of Operations

Governance and Support Services (GSS) is directly responsible for the administration of the TCPUD. It is comprised of and oversees the following functions for TCPUD; Board of Director's office, the General Manager's office, Accounting and Finance, Human Resources, Risk Management, Information Technology, the District Clerk's office, and Resource Development and Community Relations. Also, legal counsel and the independent auditor functions come under the GSS umbrella.

The following tables give a high level view of the direct operational cost to manage these services.

| | Buc | dget | | |
|------------------------|-------------|-------------|------------|-------|
| Expenses by Category | 2012 | 2013 | Amount | % |
| Personnel | \$1,449,663 | \$1,412,058 | (\$37,605) | -2.6% |
| Charges and Services | 690,639 | 694,400 | 3,761 | 0.5% |
| Materials and Supplies | 51,000 | 48,915 | (2,085) | -4.1% |
| Total | \$2,191,302 | \$2,155,373 | (\$35,929) | -1.6% |

Personnel cost decreased by \$37,605 budget on budget and is the net result of the following impacts to the 2013 budget; elimination of the Information Technology Manager position, replacing the Senior Accountant position with an Accountant I position, cross-training to replace Senior Accountant, car allowance for the new Assistant General Manager position, and transfer of 10% of the Engineering Systems Coordinator time to Governance Support Services for IT support. Other contributing factors impacting personnel cost are cost of living adjustments, merit increases and health care cost increases.

The following FTE schedule shows FTE decrease by .92 FTE. This is due to the elimination of the IT Manager and a small increase in part-time hours.

| | Budg | et | | |
|-----------------------------|-------|------|-----------|--------|
| _ | .8399 | | Change in | |
| Full Time Equivalents (FTE) | 2012 | 2013 | FTE | % |
| Full Time Year Round | 10.00 | 9.00 | (1.00) | -10.0% |
| Part Time / Seasonal | 0.40 | 0.48 | 0.08 | 20.6% |
| | 10.40 | 9.48 | (0.92) | -8.8% |

Other changes to Charges and Services and Materials and Supplies are a combination of reclassifying expense from one expense category to another. Also, a reduction in professional services for lobby fees, legal, and consultants is offset by outsourcing information technology services in the amount of \$78,000. Also, the 2013 budget includes \$7,500 to commemorate TCPUD's 75th anniversary.

2013 Governance and Support Services Capital

GSS has two capital projects planned for 2013. They are 1) Relocate Server Room in the amount of \$18,200 and 2) Replace Phone System for \$35,000. Safety/Security and Best Business Practices dictate the server room be isolated from environmental elements like heat and moisture and be in a secure location where others cannot access the computer. The current location is neither safe nor secure. The District's phone system, put into service in 1994 when the Administration Building at 221 Fairway was constructed, is over 18 years old and is in need of replacement before system failure occurs.

Additional information on the GSS 5 year capital plan can be found in the Capital Section.

Allocation of Governance and Support Services

The cost of GSS is allocated to all departments on the basis of the department's expense to the total expense for TCPUD; thereby each department shares in the cost of GSS proportionally.

NON-OPERATING AND DEBT SERVICE

Non-Operating

Non-operating schedules consist of those revenue and expenses not part of the daily operations of TCPUD.

Non-operating revenues of \$128,925 consist of interest income earned on property tax held by Placer County and El Dorado County and interest income earned on investments with Placer County Treasurer and the California State Treasurer Local Agency Investment Fund. Utility billings late payment penalties make up 47% of the non-operating revenue. Smaller amounts such as discounts earned, early payments and proceeds from asset sales make up the remainder of the revenues.

Non-operating expense of \$318,458 consists of \$225,458 in amortization of the pension asset from prepaying 2011 TCPUD unfunded CalPERS side fund in the amount of \$2,242,000. This prepayment saved TCPUD approximately \$365,000 over eight years. The pension asset will be fully amortized by 2020. The remaining \$93,000 non-operating expense is the administration fee charged TCPUD for collection of property tax.

Non-operating transfer from General Fund to the Utility Fund is budgeted at \$1,390,332 for capital reserves.

Debt Service consists of principal and interest payments due on existing TCPUD debt used for capital purchases. A Debt Service Fund which is a government fund type is used to account for the accumulations of resources to pay debt. The 2013 debt service payments are \$991,810; of which \$828,088 goes to pay principle and \$163,722 for interest. The following table shows the timing of when the debt service payments are due.

Debt Service

Tahoe City Public Utility District Long-Term Debt Revenue and Expenditures 2013 Budget

This schedule details the 2013 long-term debt repayments for the District. It shows the revenue sources used to service the debt, and it itemizes the debt expenditures. Revenue sources include general tax revenue, tax revenue generated from special tax rates which are restricted to debt service uses and supplemental user fees.

The Sidewalk Improvement Bonds have a dedicated tax source for their repayment. During 2013 the District has no plans to borrow.

The interest rates on two of the District's debts dropped in 2012. The Zion's Sidewalk Improvement Bond payments dropped from 6.015% to 2.0010% in 2012. Also the Zion's Series C Bonds dropped from 6.050% to 1.898%.

The 2003 Bank of America Loan will be paid off in May 2013. This loan was a 10 year financing in the amount of \$2,434,000 to finance the redemption of the 1993 Series A Certificates of Participation and for water and sewer capital

Tahoe City Public Utility District Long-Term Debt Revenue and Expenditures 2012 Projected

This schedule details the 2012 long-term debt repayments for the District. It shows the revenue sources used to service the debt, and it itemizes the debt expenditures. Revenue sources include general tax revenue, tax revenue generated from special tax rates which are restricted to debt service uses and supplemental user fees.

The Sidewalk Improvement Bonds have a dedicated tax source for their repayment. During 2007 the District borrowed \$2 million from Zions Bank to finance sewer and water capital. During 2008, the District borrowed \$2.3 million from the California State Revolving Fund for the Harbor Master Pump Station project at a rate of 1.8% for 20 years. This amount refinanced a \$1,437,373 bridge loan which was in place on the Plumas Bank line of credit.

During 2011 the District made it's final payment on it's Series A bonds and borrowed \$2.28 million from Bank of America to pay-off it's CalPERS pension stabilization fund liability.

PERSONNEL SECTION

Personnel

We are a service organization and it's the employees who are the face of TCPUD. Investing in and valuing our employees is investing in TCPUD. Each and every employee is committed to providing excellent customer service to TCPUD's community; residents, rate payers and visitors. In addition to providing competitive wages and benefits, TCPUD is committed to providing a workplace environment that allows our employees, working together, to excel. One of the TCPUD's core value statements is:

WORKFORCE SAFETY, STABILITY & TRAINING

TCPUD develops and maintains appropriate staffing levels of educated, professionally trained, qualified employees, dedicated to protecting the safety, health, well-being and resources of the public

The adopted budget addresses the Memorandum of Understanding (MOU) with International Union of Operating Engineers Stationary Local Number 39 which covers administrative, utilities and parks and recreation employees. TCPUD has negotiated with the MOU bargaining unit for a cost of living adjustment (COLA) based on the November consumer price index for wage increase effective January 1. This increase was also approved for our non-represented employees. The MOU also makes available to eligible employees a pension plan. The District's current pension plan formula is CalPERS 2.7% @ 55, Single Highest Year. Starting July 1, 2011, employees began making a contribution of 1% towards the 8% employee contribution portion of the pension plan. Effective January 1, 2012, and each year thereafter, the employee's deduction towards the employee portion of the pension contribution will be increased by an amount equal to 75% of COLA applied for same year until such time as the employee is paying the entire 8% employee contribution. Other factors such as deferred health benefits and employee paid member contributions considered in the MOU are also reflected in the 2013 budget.

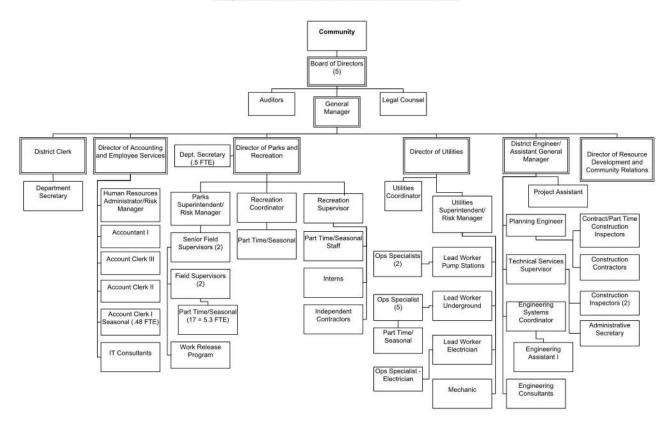

The MOU is effective January 1, 2012 through December 31, 2014.

With escalating personnel cost, especially health care cost, TCPUD was able to establish a Health Reimbursement Arrangement for employees who voluntarily switched to a lower-cost premium health insurance. This allowed the TCPUD to share half the annual savings with participating employees.

On September 12, 2012, Governor Brown signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA takes effect January 1, 2013. Basically, PEPRA affects new TCPUD employees hired on or after January 1, 2013 through provisions affecting benefit formulas, the definition of what comprises pensionable earnings, limits on pensionable earnings, and other matters. The new law also calls for new members to pay 50 percent of the normal cost of benefits by 2018. We are currently at full employment and do not anticipate any new employees at this time.

The following organization chart shows the structure of TCPUD and the relationship among the departments and staff. The General Manager oversees 39 full time employees and 30 seasonal employees.

Organization Chart 2013 District Wide

The following 2013 budget assumptions were used to develop the personnel budget:

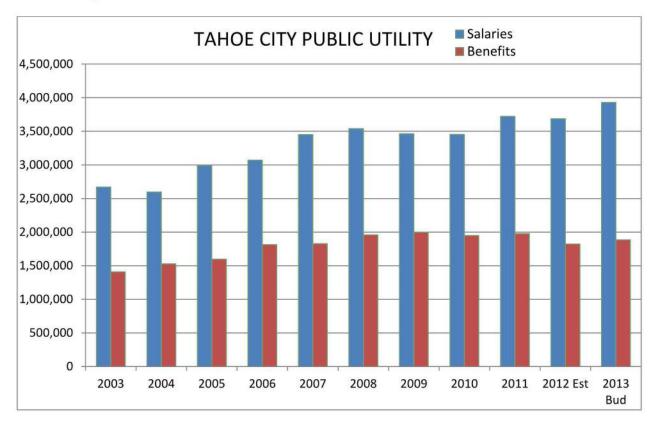

- Annual merit review increases of 3-5% based on satisfactory to excellent performance (limited at top of range where applicable).
- Cost of living adjustment (COLA) increase for satisfactory or above performance 2.5%.
- Benefit Rates
 - PERS Choice medical insurance rates for Public Employees' Retirement System (PERS) increased 16.2% from 2012.
 - Fund the additional regular contribution (ARC) rate for post-retirement medical benefits for 2013 (\$240,096 annual expense up 2% to last year).
 - PERS Member rate 8.00% (employee estimated to pay 5.3%).
 - Employer Cost Pension Refunding Bonds amortization \$225,000.
 - PERS Employer Retirement contribution % 1/1/13 -6/30/13 is 15.178 %.
 - PERS Employer Retirement contribution % 7/1/13 12/31/13 is 17.178%.
 - Worker's Compensation Premiums- Experience modification factor is 0.80, unchanged from 2012.
 - Health Deferral goes to 60% from 70% as provided in the Memorandum of Understanding.

Staff incorporated the following budget strategies to manage rising personnel cost while maintaining the high services levels the community has come to appreciate and expect.

- Restructured Workforce:
 - Staff Development.

- Created lead positions.
- Reinstituted Accountant I position to replace Senior Accountant.
- Risk Management Team created.
- Eliminated Recreation Superintendent and added a part-time administration staff to support Parks Management.
- Pursue use of Work Release Program thereby allowing for a reduction in part-time seasonal staffing.
- Outsourcing Information Technology (IT) Services thereby reducing TCPUD workforce by 1 full-time year-round position while maintaining quality IT services.
- Established a Health Reimbursement Arrangement (HRA) wherein savings are shared with the participating employees. An HRA is an employer-funded medical reimbursement plans that sets aside a specific amount of pre-tax dollars for employees to pay for eligible health care expense on an annual basis. The TCPUD's HRA is available to those qualifying employees who voluntarily elected to change from PERS Choice health insurance plan to a lower cost PERS Select health insurance plan. The savings from the change is shared 50/50 between the employer and employee.

The following chart shows the salaries and benefits trends since 2003.

The following chart shows the full time staffing levels back to 2003.

TCPUD maintains two salary ranges; 1) Classified and Seasonal Salary Ranges and 2) Management and Supervisory Salary Ranges. Both ranges show the position/ title, monthly amount for entry and top of range, hourly rate of pay for entry and top of range, and percentage spreads for each position/title on the ranges. The MOU requires that the Classified and Seasonal Salary Ranges increase by COLA each year. This increase was also approved for our non-represented employees.

2013 CAPITAL BUDGET AND FIVE-YEAR CAPITAL PLAN

Lake Forest Water System Replacement Project (Lake Forest Road, corner of Aspen)

2013 Capital Budget and Five-Year Capital Plan

A capital budget includes planned outlays for capital assets with long expected lives and which are designed to produce income or support operations. The capital threshold for TCPUD begins at \$5,000, must be used in operations, and have a life greater than three years. Items such as replacing the phone system, bike trail overlays, best management practices (BMP), tank recoating, meter installations, sewer line replacement/rehabilitation, water line replacement, planning and design work for specific long-term projects are part of the capital budget and five-year capital plan.

The 2013 capital budget and the five-year capital plan represents staff's best efforts to meet the long-term infrastructure needs of TCPUD. The Board of Directors approved the 2013 capital budget of \$6,636,775 and is staff's authorization to spend for the current year. The 2013 capital is anticipating \$2,021,828 in grant or other funding offsets.

The five year capital plan lists and describes capital projects in the near term that TCPUD plans to undertake any time after 2013. Including the 2013 authorized capital budget, the five-year capital spending plan estimates \$44,050,087 in capital spending offset by \$7,082,103 in grant or other outside funding. The following table summarizes the five-year capital plan by area.

| | Summary Year Capital Plan ict-Wide Summary 2013 -2017 |
|---|--|
| Governance & Support Services Engineering Water Sewer Parks Department District-Wide Vehicles | \$ 119,200 7,500 20,775,179 12,095,958 2,437,148 1,533,000 |
| Subtotal 2013-2017 District Funded Capital | \$ 36,967,985 |
| Total 2013 -2017 Grant Funded Projects | 7,082,103 |
| Total 2013-2017 District-Wide Capital | \$ 44,050,087 |

The following table summarizes the five-year capital plan by Asset Category within departments

| <u>Department</u> | Asset Category | | 5 Year Total |
|-------------------|----------------|-----|--------------|
| Water | Source | \$ | 13,501,159 |
| Water | Storage | | 3,982,347 |
| Water | Transmission | | 2,622,383 |
| Water | Distribution | | 4,347,711 |
| Water | Equipment | | 3,333 |
| Sewer | Transmission | | 4,326,158 |
| Sewer | Collection | | 5,961,740 |
| Sewer | Equipment | | 1,808,060 |
| Parks | All | | 5,837,496 |
| Vehicle | Rolling Stock | | 1,533,000 |
| Other | Miscellaneous | 20. | 126,700 |
| | Total | \$ | 44,050,087 |

The following six capital programs represent \$20.5 million or 46% of the five-year capital plan:

- West Lake Tahoe Regional Water Treatment Plant (formerly the McKinney-Quail Secondary Source)
- Tahoe City Main Source & Storage Augmentation Projects
- Rubicon Transmission Improvement Projects
- Bunker Water Tank Replacement
- Tahoe City Residential Sewer System Rehabilitation
- · WS Export Truckee River Crossing Repair
