Will this property be abandoning an existing water stub for a new water stub? Y N

LOCAL FIRE DISTRICT APPROVAL: TO BE COMPLETED BY THE LOCAL FIRE DISTRICT OR THE EL DORADO COUNTY BUILDING DEPARTMENT ONLY!

- Checkboxes for fire sprinkler system requirements, reviewed and approved, and existing system expansion.

Fire District/Building Department Authorized Signature/Stamp:

As an alternative to preparing the fire sprinkler plans at this time, the fire sprinkler contractor may prepare a letter to the local fire district (or El Dorado County Building Dept.), stating the basics of the proposed fire sprinkler system (e.g. size of water lateral from main to meter, meter size, size of water lateral from meter to house, if a booster pump is needed, and if a holding tank will be installed, etc.). This letter shall then be stamped and signed by the Fire District or Building Department. See attached letter

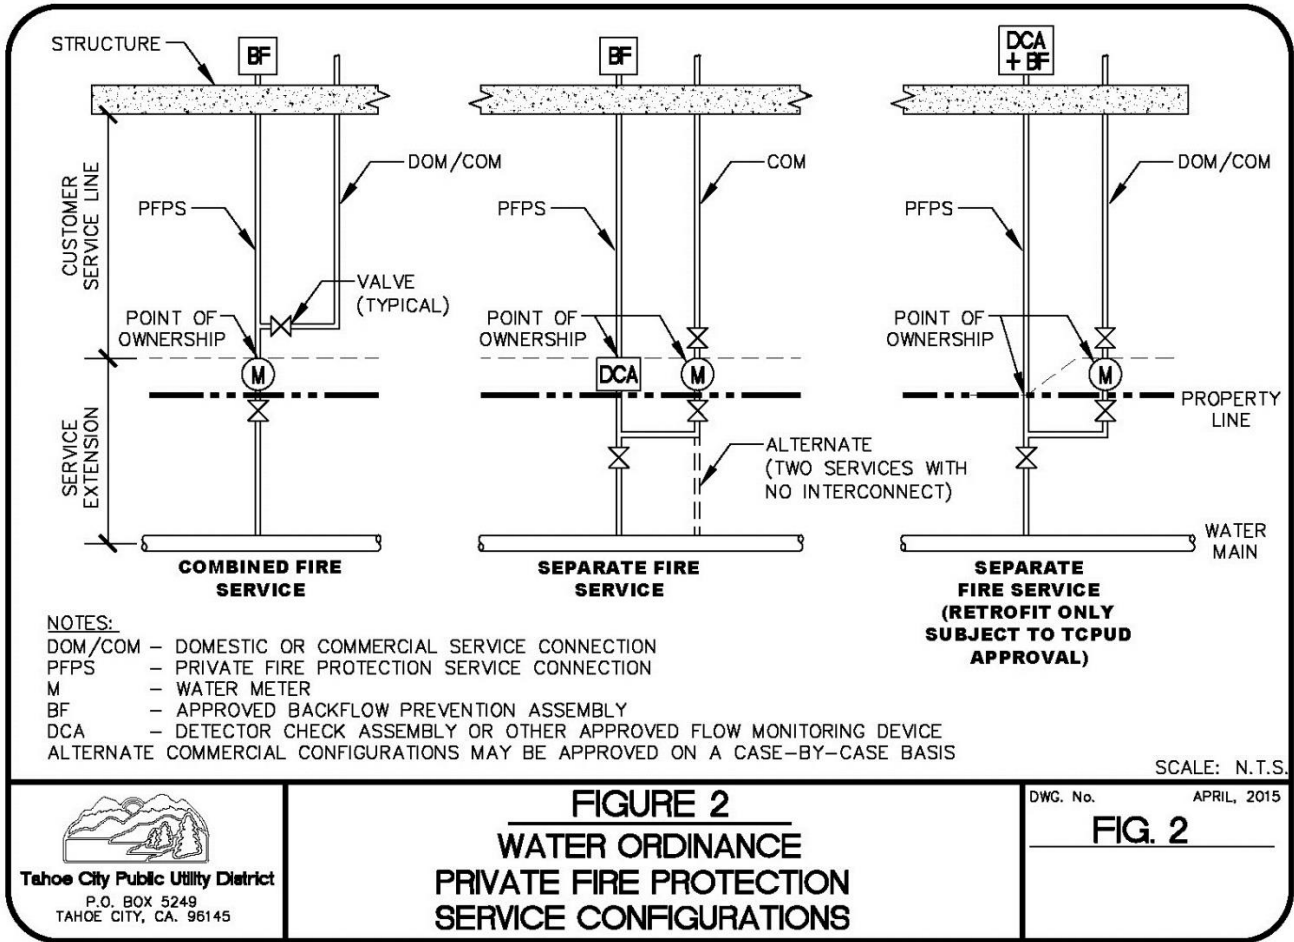

Authorized Representative Statement

I have personally examined and am familiar with the information submitted from the Fire Sprinkler Contractor in the attached Calculation Application, and I hereby certify that this information is true, accurate and complete.
